

I listen to K-LOVE radio on 91.1 in Denver every day. It is an uplifting and encouraging station that adds tremendous value to my life. If LPFM broadcasts were allowed to take priority over stations like K-LOVE, a huge dis-service would be done to the community. I personally would be affected and I know of many others who also enjoy and are encouraged by listening to K-LOVE. Especially in these troubled times, the community needs supportive and positive radio stations like K-LOVE as an alternative to crass, vulgar programming found on so many other stations. Please allow stations like K-LOVE to continue! Thanks!
